

TESTIMONIALS

I am so happy to be a part of DMCS. Over the course of the 5 years that I have been part of the faculty I have enjoyed the wonderful atmosphere of collaboration and support for all of the staff. We are encouraged to strive for excellence in our teaching by getting ongoing training on different programs and techniques that promote success. At the same time, we have fun as a staff with monthly potlucks and experience support at weekly CPT meetings. We share a goal of helping each child succeed by looking at the whole child. I love it here. -**April Kemp**

My experience at DMCS has been extremely positive. From Day 1 I have been impressed by the students, families, and staff here! Everyone is so willing to go above and beyond to lend a hand or offer support. I see this school has the goal not only to raise students with academic excellence, but also to develop their life skills and character. It is a true privilege to be able to work at DMCS! - **Valerie Leong**

To be a part of the DMCS team, means that you are supported, uplifted, and heard. This is the first school I've worked at where I felt supported by my administration in such a way that I felt like I could truly explore the art of educating children. Also, my fellow staff, especially my grade-level teaching team, fill me with confidence through open and honest collaboration. And, finally, I am supported by a school board that makes me feel heard; that makes sure the needs of their students and staff come first. I feel fortunate to be a part of the DMCS team and community, and I am grateful for the time I spend with my students who are motivated learners and kindhearted -**Lara Perfecto**

I am proud to work at Dixon Montessori Charter School. We are invested in the success of our students, and work as a team to support the best environment for all kinds of learners. Every decision that we make comes from a student-first approach. At DMCS, teachers learn from one another and positive collaboration is valued. The administration and school board support and encourage the ongoing professional development of its staff. Dixon Montessori Charter School is a place where students and teachers are encouraged to be the best they can be! - **Melissa Moore**

Teaching at DMCS has given me incredible opportunities for professional growth. The administrators are knowledgeable and supportive; the environment is caring; the philosophy is the best of Montessori and traditional teaching combined. I'm proud to be on staff with a school where students are top priority, teacher's opinions are valued, and parents are highly involved. I can't imagine teaching anywhere else! -**Jamie Myers**

I drive 40 minutes one way every day from Concord to Dixon, paying a bridge toll in the process, to work at a school where I know the staff are both friendly and helpful. -**Walter Lewis**
